Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Notice to Applicants

This application, previously assigned to and Examined by Ex. King, is now assigned to Ex. Dang. Any future contact should be directed to Ex. Khanh Dang whose contact information is provided at the end of this Office Action.

Election/Restrictions

This application contains claims directed to the following patentably distinct species: the species as shown in Fig. 2, the species as shown in Fig. 3, the species as shown in Fig. 4, the species as shown in Fig. 5, the species as shown in Fig. 6, and the species as shown in Fig. 7. The species are independent or distinct because they are directed to different and distinctive embodiments having mutually different characteristics. As a matter of fact, as disclosed in the originally filed specification, the above identified species are directed to another and different embodiments.

As set forth in MPEP 808.01(a):

Where there is no disclosure of relationship between species (see MPEP 806.04(b)), they are independent inventions and election of one invention following a requirement for restriction is mandatory even though applicant disagrees with the examiner. There must be a patentable difference between the species as claimed, see MPEP 806.04(h) . Thus the reasons for insisting upon election of one species, are the facts relied on for the conclusion that there are claims restricted, respectively, to two or

Art Unit: 2111

more patentably different species that are disclosed in the application, and it is not necessary to show a separate status in the art or separate classification.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
